

Misa Oy has decades' experience and knowledge in manufacturing sauna heaters and stoves for large-scale use. Sauna heaters and stoves for large-scale use are made to order. Delivery time approx 4-8 weeks.

ELECTRIC SAUNA HEATERS FOR LARGE-SCALE USE

ERM – models (square-shaped)

The Misa electric heaters for large-scale

use are handmade to order of best high-quality materials and they are developed for heavy use.

The electric sauna heaters for large-scale use are manufactured of stainless steel. Outer jacket of the heater is made of acid-proof steel. These heaters have fire-proof resistor elements of stainless steel. The resistor elements are in a sheltered space inside the heater.

MISA - ERM ELECTRIC HEATERS FOR LARGE-SCALE USE (separate control box)

Pro-duct No.	Power		Nominal voltage	Group wattages of heater kW	Dimensions			Heater colours	Amount of stones kg	Weight kg
	kW	m ³			Width cm	Depth cm	Height cm			
12812	11,9	10-16	400 3N~	2-group	56,6	51,6	81	Stainless steel	55	49
12815	15,3	12-19	400 3N~	2-group	56,6	51,6	81	Stainless steel	55	50
12820	20,4	15-25	400 3N~	2-group	71,6	51,6	81	Stainless steel	65	69
12825	25,5	20-31	400 3N~	2-group	86,6	51,6	81	Stainless steel	100	85
12830	30,6	25-36	400 3N~	2-group	105	51,6	81	Stainless steel	120	100
12840	40,8	35-50	400 3N~	2-group	132	52	81	Stainless steel	140	120

Protective distances:

- at back 15 cm
- on both sides 15 cm
- at front 15 cm
- from top of the heater to the ceiling 120 cm
